

## FIT GUIDE

SITKA Gear engineers gear with a specific Fit and intended end use in mind. These functional designs provide the user with authentic garments for the right situation. We can communicate our Fit descriptions in 3 different ways. Keep in mind that each garment will allow for layering in accordance to the garments place in a system and described Fit.

**P/F**

### PERFORMANCE FIT

Designed for minimal layering. Whether an early season piece or already insulated this garment fits to prevent inefficiencies in heat retention caused by dead space.

**S/F**

### STANDARD FIT

Designed to accommodate layering for more versatility from early to late season climates.

**E/F**

### EXPEDITION FIT

Designed for maximum layering in the worst conditions. Cut roomier to accommodate additional layering underneath.

Boot Circumference	20.75"	22"
Height	16.25"	17.25"

## HOW TO TAKE YOUR MEASUREMENTS

### 1) Sleeve Measure

Bend your elbow and put your hand on your hip. Measure from the center of the back of your neck, along the shoulder and down the elbow to the wrist bone.

### 2) Chest Size

Take measurement under armpits, around fullest part of chest and shoulder blades.

### 3) Waist Size

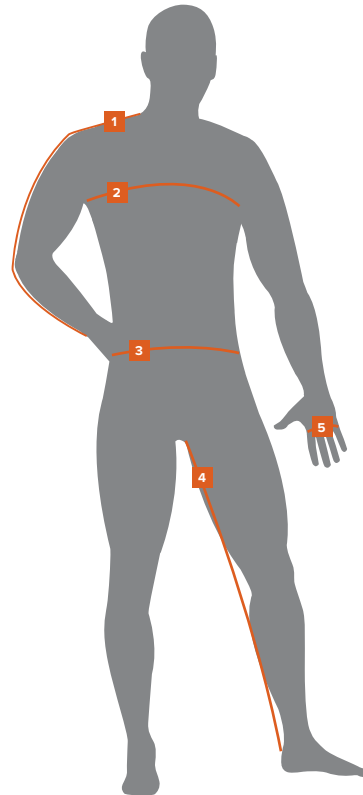

Measure around where you normally wear your pants, keeping the tape measure a bit loose or putting one finger between your body and the tape measure.

### 4) Inseam

In a standing position, measure from your crotch to end, breaking at the top of the shoe in the front and just above the heel in the back.

### 5) Gloves

With hand partially closed, measure over the knuckles, around the hand, excluding the thumb.

## HOW TO TAKE YOUR MEASUREMENTS

### 1) Sleeve Measure

Bend your elbow and put your hand on your hip. Measure from the center of the back of your neck, along the shoulder and down the elbow to the wrist bone.

### 2) Chest Size

Wrap the tape measure under armpits, around the fullest part of your chest. The tape measure should be snug, yet not so tight that it constricts breathing, yet not so loose that the tape measure slides down. Don't puff out your chest. Stand relaxed while measuring.

### 3) Waist Size

Measure your natural waist, which is the narrowest part of your abdomen, between your ribcage and hips. Stand relaxed while measuring.

### 4) Hip Size

For hip circumference, measure around your fullest point, approximately 8" below your natural waist.

### 5 - Inseam

In a standing position, measure from your crotch to where you want your pants to end, breaking at the top of the shoe in the front and just above the heel in the back.

### 6 - Gloves

With hand partially closed, measure over the knuckles and around the hand, excluding the thumb.

\*\* If Waist and Hip measurements do not match up on the chart, choose a size that is between the two to find the best fit. Ex 1: If your waist measures 28" and your hip measures 40", typically the best fit would be a size 29. Ex 2: If your waist measures 27.5", and your hips measure 38", typically the best fit would be a size 28.

## WOMEN'S SIZING GUIDE

GEAR SIZING	XS	S	M	L	XL	XXL
Chest / Bust	32 - 33"	34 - 35"	36 - 37"	38.5 - 40"	42 - 44"	46"
Waist	25.5 - 26.5"	27.5 - 28.5"	29.5 - 30.5"	32 - 34"	36 - 38"	40.5"
Hip	35 - 36"	37 - 38"	39 - 40"	41.5 - 43"	45 - 47"	48.5"
